Abdulghani Abid Asaad

Address: Duhok/Shaxkhe

I work with a medical company that contracted with EDC, which in turn contracted with Taqa Company since 2017 and until now, I am continuing my work. I worked with foreign paramedics and doctors and worked with them as an assistant, as a translator and as an ambulance driver, and now I do the same work with local doctors and paramedics.

I also participated and helped in concluding contracts for the medical company that I work for (bCM) with private hospitals in Dohuk all this years.

I participated in many courses (and more than once), including first aid, a course on prevention of H2S gas, and others.

Other jobs: I was a teacher and school principal in all stages of the school, elementary, middle and preparatory schools for more than 10 years. I left teaching and joined oil companies from 2017 until now.
