Professional Summary

A mechanical engineer with diverse skills in this field, he holds a bachelor's degree from An-Najah National University, and has attended several diverse courses , Proficient in CAD software, including AutoCAD , SolidWorks and ArtCam .

I have several personal projects about : Hvac , cooling systems , drainage systems , fire fighting systems, designing a hot and cold water systems , Medical extensions . and Personal gradation project about Photovoltaic system using 8 panels of photovoltaics .

Professional strengths include:

- Site Engineering
- Project Management
- AutoCad
- SolidWorks
- ArtCam
- Reporting
- Microsoft office
- Presentation skills
- Mechanical systems of buildings
- Hvac
- Communication
- Mechanical sales

Training courses

- Vehicle inspection through an organized training program implemented at the Tubas Municipality Dynamometer - 06/2022
- Sheet Metal Design using SolidWorks :
online Training extensively in the design and development of sheet metal using SolidWorks. and Acquired proficiency in creating detailed 3D models
- Design using ArtCAM software:
An online course in using the ArtCAM program in various mechanical designs

Education & Languages

Bachelor's Degree in Civil Engineering.
An-Najah National University – Nablus, Palestine .

Arabic: Native
English : intermediate
Turkish : intermediate
