Ahmed AL-amrousi

Mechatronics
engineer

EXPERIENCE

While studying in college

I took a SolidWorks CD online and learned all the drawing commands on the program

while studying in college

I obtained a training period at the Misr Metro Company, where I studied the metro control devices and learned how the ventilation process is carried out inside the metro station. I also completed training periods at the FAW Company under the sponsorship of a maintenance engineer within the company.

EDUCATION

I studied at delta technology university faculty of industrial and energy technology mechatronics department since 2019 .i graduated form the college in 2023 and obtained a bachelor of technology
