

Profile:

Ph.D. student in physical chemistry

I'm a hard worker with good teamwork skills. My areas of expertise in chemistry are polymers, biopolymers, scaffold, and tissue regeneration, besides a good knowledge of data exploitation from FTIR analysis, XRD, SEM, TGA, DTA, and DSC.

FORMATION:

- From 01/2020 to 07/2020, scholarship for doctoral research
[Campus Espinardo, University of Murcia, Spain.](#)
- From 07/04/2014 to 07/05/2014, Training in liquefied natural gas groups LNG1 at Sonatrach.

DIPLOME:

- July 09, 2010: Baccalaureate in Electrical Engineering (Technical Math).
- Bachelor's degree in Process Engineering, Specialty in Analytical Chemistry
[University Oran 1 Ahmed Bella .](#)
- Diploma of Master 2 in Chemistry, Specialty Molecular Chemistry and Processes, Option: Physical chemistry and Spectroscopy.
[University Oran 1 Ahmed Bella .](#)
- Ph.D. student in Physical Chemistry
[University Oran 1 Ahmed Bella .](#)

EXPERIENCE:

- 2017/2019, Temporary teacher
[University Oran 1 Ahmed Bella .](#)
