Experienced mechanic technician with a proven track record in routine maintenance, troubleshooting equipment malfunctions, conducting inspections, and maintaining accurate records. Skilled in collaboration, following safety guidelines, and updating job knowledge.

## Expérience

---

### **Industrial Mechanic Technician Sonatrach GL2Z Separation & Liquefaction Complex**

PPL Equipment Inspector - algeria., AL

juin 2010 - aujourd'hui

Supervised and instructed apprentices in the trade, fostering their skill development. Conducted thorough inspections and root cause analyses to identify machinery breakdowns and malfunctions. Oversaw the construction of foundations for machinery installation, ensuring structural integrity. Executed repairs and replacements of faulty components, maintaining operational efficiency. Managed teams of workers to achieve project objectives and quality standards. Fabricated essential machine components, contributing to repair, maintenance, and assembly efforts. Estimated project costs and required materials, facilitating informed decision-making. Implemented regular maintenance routines to sustain optimal machinery performance. Proficiently interpreted blueprints, maps, drawings, and specifications for precise work execution. Utilized machining tools proficiently to craft intricate parts with precision. Programmed programmable logic controllers

(PLCs) to automate machinery processes. Assembled machinery and equipment prior to installation, ensuring proper functionality. Expertly installed a variety of machinery and equipment, leveraging lifting devices as needed. Operated and monitored mechanically and computer-controlled machinery and systems.

Employed specialized tools to maintain, repair, and troubleshoot equipment and machines. Collaborated with technical equipment, instruments, and systems to achieve operational goals. Demonstrated strong communication skills, effectively exchanging information, offering advice, and influencing outcomes. Developed and utilized systems to manage and retrieve information on the GATIOR SYSTEM.

Conducted meticulous inspections and tests to verify performance and quality.

Analyzed information to make informed decisions and develop effective solutions.

Diagnosed complex issues using advanced techniques and tools. Conducted vibration analyses and evaluated resulting data for informed decision-making. Ensured compliance with safety standards, laws, and regulations by examining problems and locations. Analyzed data to determine appropriate courses of action and recommendations. Assessed physical conditions through diagnostic tests, enabling precise treatment planning. Assumed responsibility for directing company resources and strategic planning. Performed preventive maintenance on steam turbines, including MITSUBISHI Jan model 9 CL 12.8CL 12.5BL 4, and drive equipment

COMPRESSEUR DERSSE RAND USA. Executed preventive maintenance on MITSUBISHI JAP MODEL

AH3003 POWER GENERATOR. Managed revisions and maintenance for diverse equipment types, including pumps (FLOWSERV, RUHPUMPEN, ELLIOTT), agitators, and motors

(SIEMENS /ABB 1500KW, WESTINGHOUSE 261KW, TOSHIBA 1320KW, EMERSON, CRANKCASE 345KW).

## **Mechanic Technician**

Sonatrach DIVISION GNL&GPL COMPLEXE GL2Z

avril 2006 - juin 2010

- Performing routine maintenance and repairs on various types of machinery
- Diagnosing and troubleshooting equipment malfunctions
- Conducting inspections and testing procedures to ensure equipment functionality
- Maintaining accurate records of maintenance and repair activities
- Repairing or replacing defective parts and components
- Operating and maintaining tools and equipment necessary for the job
- Collaborating with team members to complete projects and tasks
- Following safety guidelines and protocols in all work activities
- Ensuring compliance with company policies and procedures
- Updating job knowledge by participating in educational opportunities

## Formation

---

### **Certificate Centrifugal pumps IAP SK, en Technologie du génie mécanique**

school of IAP skikda - Skikda

octobre 2016 - octobre 2016

### **Certificate laser me surely and alignment Easy laser en Technologie du génie mécanique**

Easy laser formerly damalini AB

mai 2009 - mai 2009

### **CAP/BEP en Technologie du génie mécanique**

INSTITUT DE PÉTROLE IAP ARZEW - Oran

avril 2006 - juin 2007

### **Diplomate Senior Mechanical Engineering Technician en Mechanical construction**

INSTITUTE INSFP ES SENIA - Oran

septembre 2002 - juillet 2005

### **Certificat 3rd Scientists en Scientists**

Cheikh El Mehdi El Bouabdelli High School Arzew - Arzew

septembre 1999 - juin 2000

## Compétences

---

- Decision Making
- Time Management
- Persuasive Speaking
- Active Listening
- Multitasking
- Conflict Resolution
- Shipping and Receiving (10 ans minimum)

- Mechanic Experience (10 ans minimum)
- Automotive Diagnostics (10 ans minimum)
- Root Cause Analysis (10 ans minimum)

## Langues

---

- Français - Avancé
- Arabe - Avancé
- English - Intermédiaire

## Certificats et accréditations

---

### **Permis B**

août 2002 - juillet 2033
