SUMMARY

Working in the field of aviation push us in order to exercise our talents and apply the methods and techniques that fit our training as avionics technician. The knowledge, ease of learning and adaptability that we acquired in the present job like "doing job cards, work orders and modifications. Inspect, test, troubleshoot and undertake faults ..." make the person useful and productive for a company and push him to aim the position of Aircraft Technician that provides an opportunity for evolution.

EXPERIENCE

- **Tunisair Technics** April 2017 - Present
Avionics Technician
Avionics technician
Base Maintenance: Doing modification (achievement of the stripping, crimping and routing) in accordance with SB, AD... Doing job cards, work orders, trouble shooting in accordance with Aircraft Maintenance documentation
- **Lufthansa Technik** January 2017 - January 2017
Avionics Technician
Avionics Technician Contractor for 10 days (Cabin Modification on A330)
- **Sabena Technics** May 2013 - April 2016
Avionics Technician
Avionics Technician
- Line maintenance: Daily and weekly checks, doing trouble shooting and dispatch in accordance with MEL, ensure that the aircraft is still navigable in the standard of the maintenance manual and MEL...
- Base maintenance: Doing modification (achievement of the stripping, crimping and routing)...in accordance with SB, AD...
Doing A-checks, C-checks, and D-checks... in accordance with Aircraft Maintenance Documentation

SKILLS

- Electrical wiring modification, Removal & installation, Fault diagnosis & test, Using Airn@v

TRAINING AND QUALIFICATION

- Certificates:
 - Human factor (HF)
 - Electrical Wiring Interconnection System (E.W.I.S)
 - Critical Design Configuration Control Limitation (C.D.C.C.L)
 - Maintenance Organisation Exposition (M.O.E)
 - Safety Management System (S.M.S)
- October 2015:
Aircraft Maintenance License (avionics)
 - Issued in accordance with ICAO norms.
 - Sub Categories: Avionics
 - Ratings: Type A318 (CFM56) and A319/20/21 (CFM56 & IAE V2500)
- February 2015:
Qualification Jet-Engine types:
Difference course between Airbus A318/A319/A320/A321 (CFM56) And Airbus A319/A320/A321 (IAE V2500)
Practical part T2+T1
- February 2015:
Maintenance Qualification "avionics course" Airbus A318/A319/A320/A321 (CFM56)
Practical Part T2
- May 2015:
Qualification Jet-Engine types:
Difference course between Airbus A318/A319/A320/A321 (CFM56) And Airbus A319/A320/A321 (IAE V2500)
Theoretical Part T2+T1

- April 2014:
Maintenance Qualification "avionics course" Airbus A318/A319/A320/A321 (CFM56)
Theoretical Part T2

EDUCATION

- **Airlines Flight Academy** 2012
Aircraft Maintenance Technician
Avionics
- **High School El Mourouj 1** 2009
High School Diploma (baccalaureate)
Section: Experimental Sciences

LANGUAGES

- French C1, English B1
