SKILLS ——————

- Technologies and Frameworks:

| Java | CI/CD | jQuery | html |

| Azure | BootStrap | TypeScript |

| Jenkins | Cucumber | Selenium |

| Javasript | SONAR | Spring boot |

| Angular12 | Css | JUnit |

| MicroServices |

- Database administration :

| MysQl | Oracle | PostGreSQL |

| SQL |

- Methodologies :

| DevOps | UML | Scrum | Agile |

- Tools :

| Doker | Jira | GitLab | GitHub |

HIGHLIGHTS ——————

⚖ Teamwork, Organization, Flexibility, Creativity, Motivation.

WORK EXPERIENCE

January 2023 - 2months   **ATOS : internship**   Spain , Valencia
AnteServeur Maintenance (Pro*C , C ,PL/SQL , Dbeaver, Github, SCRUM , Jenkins ,MOBAXterm , Eclipse, Oracle)
- learn about the ANS AnteServer project
- analyze the current and desired behavior of mantis
- modify the evolutionary part in the application
- develop the SQL scripts of the return files
- put the application in Github
- launch the build in Jenkins
- launch the test scripts with MOBAXterm
- meeting with the ANS client

July 2022- 6months   **V2C : End of studies internship**   Spain , Valencia
- TelegramBot maintenance (NodeJS ,VSCode): Translation , maintenance bouttons
- SteVe Server Automation Tests (Java ,Spring boot , Github , Jira , swagger , Selenium java , Cucumber ,Linux , Ubuntu , JUnit)
- Execution of non-regression tests for releases and revisions
- Analysis of the causes of identified anomalies and reporting in the monitoring tools
- Generation of reports following the testing phases
- V2C Dashboard Installer : (Angular10 , API Swagger, github)

August 2021 -1month   **Make It Special , Engineering remote internship**   portugal
Uclockit Development Platform :
- Translate error of the platform
- Offline module of connectivity
- Technologies and tools:
Backend part :(Spring boot)
HIBERNATE,JPA,Devops,microServices,gitlab,mysql,TOMCAT,Docker ,REST,Swagger,Jenkins,Sonar,googleCloudPlatform,MicrosoftTeams.

June 2021- 2months   **DB Consulting ,Engineering remote internship**   france
Project Management Application Development
Database Design
authentication (spring security) with mailing
scrum board
- Technologies and tools :
Angular12 (Template Fuse),HIBERNATE,JPA,TOMCAT, Spring boot , MySQL,JIRA , github , Postman , STS , VSCode ,XAMPP.

July 2021- 2months   **Tunisair: Engineer internship**   Tunisian National Airline
Authentication and chatbox integration for the Tunisair employees , covid website development concerning the flights which displays the necessary information for each country: with (php and bootstrap)

July 2020- 1month   **Tunisian Post: Development Center-internship**   TUNISIA, TUNIS
Internship Application Development website with PHP via WAMP and EditPlus.

EDUCATION

Avril 2023   **Computer Engineering (in progress)**   Tunis, Ariana
ESPRIT: Private Higher School of Engineering and Technology

2017 – 2019   **IPEIN: Technology preparatory**   Tunis, Nabeul
Preparatory Institute for Engineering Studies of Nabeul(PT - Technology Preparation).

June 2017   Baccalaureate in Technical Sciences(mention well)   Tunisia

PROJECTS

Septembre 2021- duration 3months	**DevOps Project** *Spring boot project : the continuous integration chain and the continuous deployment implementation CI/CD .* - Spring/ Azure/ SONAR / NEXUS /Jenkins/ Log4j / Docker/ JUnit / Github /XAMPP / WebHook / ngRok /JACOCO / MOCKITO
September 2019-June 2020	**Desktop Application Management of a Travel Agency:** *Desktop application for management of a travel agency (C language)* - My tasks : hotels management, cars management (reservation, rental, payment) Developed under Linux by Glade.
January 2021- duration 6 months.	**Real Estate Site: Dari.tn** *Real estate website development application (Teamwork)* - my tasks : (comment management, payment, mailing(contact us) , price reduction with mailing and upload file) - Technologies : SpringBoot , Angular9 (full stack) .

CERTIFICATES

August 2018	PYTHON Training Certificate Python programming Level 2 / SQL / SQLITE	Tunisia
August 2021	Scrum Fundation Certified	SCRUMstudy
