2022 - 2022

supervisor

Carrying out the tasks of supervising all contractors' work

### **National Museum of Civilizations**

2022 - 2023

Occupational safety and health officer

From my experience in the fields of contracting and finishing within multiple companies and many different construction sites, and my awareness, belief, and belief in the importance of providing a suitable work environment to preserve the lives of workers within companies, bodies, institutions, and all different work environments to carry out work in a safe and sound manner, I went to learn the "science" of occupational safety and health and obtained certificates. Certified by the Institute of Occupational Safety and Health and Proficiency Company for training and providing consultations and services for occupational safety and health for companies. After this effort of training and work, I truly realized the importance of safety science in all of our lives, and then applied to work at the National Museum of Civilizations to gain more experience in how to manage business while maintaining safety. workers and carry out all work without risking their lives or disrupting the workflow inside the museum, and then I applied occupational safety and health laws in all private work.
