

EL OIRIAGLI CHAIMAE

FULLSTACK ENGINEER

PROFILE

Dynamic Fullstack Engineer with a passion for crafting innovative solutions and enhancing user experiences. Proficient in both frontend and backend development, with expertise in technologies such as React, Express.js, and Redux. Dedicated to delivering high-quality projects through collaborative teamwork and continuous learning. Committed to driving excellence and achieving results in dynamic environments.

WORK EXPERIENCE

TECHNICAL SKILLS

React | Express.js
Redux saga | Ant design

React | Next.js
trpc | Material UI

React | Node.js
Socket.IO

TECHNICAL SKILLS

PHP | Javascript
CSS

React | Node.js
Socket.IO

ONCF - Software Engineer

Jan 2023 - present

- Developing and maintaining the ONCF Voyages website using React for client-side interactions. <https://www.oncf-voyages.ma/>
- Implementing Express.js for robust backend operations, including data formatting and external communication.
- Utilizing Redux for efficient data caching and seamless user experience across sessions.
- Managing frontend deployment using PM2 for reliable performance.
- Collaborating with a diverse team to deliver high-quality features and functionalities.
- Contributing to the implementation of multi-language support (English, French, Arabic) using Redux.
- Assisting in maintaining codebase integrity through thorough code reviews and proactive issue resolution.
- Proposing features, obtaining approval from the marketing and legal teams, and then collaborating with the engineering team to implement them.
- Proposing features, obtaining approval from the marketing and legal teams, and then collaborating with the engineering team to implement them.
- Actively contributing to the continuous improvement and growth of the ONCF Voyages project.

BOOM - Frontend Engineer

Jul 2022 - Dec 2022

- Built fast and performant web applications using React.js and Next.js.
- Identified and documented bugs, ensuring prompt resolution.
- Innovatively designed and implemented a dynamic form generation system using React, providing team members with a versatile tool to effortlessly create customizable forms for client use. This solution streamlined the form creation process and improved efficiency in client interactions.
- Developed a comprehensive CMS for internal use, enabling administrators and workers to manage candidate profiles.
- Facilitated scheduling of calls and meetings within the CMS.
- Implemented functionality for managing candidate candidacy progress and payments within the CMS.

EXAHUNT - FULLSTACK ENGINEER

Nov 2020 - Jun 2021

- Developed a dashboard for the CMS to track candidate applications.
- Implemented secure internal chat functionality using Socket.IO, Node.js, and React.
- Contributed as a fullstack engineer to various projects focused on cybersecurity education.
- Collaborated with team members to ensure smooth integration of features and functionalities.
- Gained practical experience in both frontend and backend development within a cybersecurity education context.

PROJECTS

Web application - JeSuisMarocaineJeSuisDigital

- Developed "JeSuisMarocaineJeSuisDigital," a web application aimed at supporting women in Morocco and encouraging their integration into the IT world.
- Collaborated with 1337 staff to create the website using PHP and JavaScript.
- Implemented features to empower women through IT education and resources.
- Demonstrated a commitment to social impact and gender diversity in technology through proactive project development.

Matcha

- Developed "Matcha," a web application designed to facilitate connections between users based on mutual interests and proximity.
- Utilized Node.js, React, CSS, and Socket.IO to create a dynamic and engaging platform.
- Integrated GPS functionality to enable users to discover and connect with matches in their vicinity.
- Implemented a real-time chat feature using React for the frontend and Express for the backend, enhancing user interaction and communication.
- Demonstrated proficiency in fullstack development and innovative use of technologies to create a unique social networking experience.

ACHIEVEMENTS & ACTIVITIES

- | | |
|------|---|
| 2022 | 2nd place in competition National young developer days. |
| 2021 | 2nd place in Moroccan Collegiate Programming Contest. |
| 2020 | Volunteered at Wiqaytna app (Moroccan mobile application for notification of exposure to the Coronavirus responsible for the disease "COVID-19"). |
| 2019 | Staff at Code Challenge. |
