### SUMMARY

Seeking a position that aligns with the expertise cultivated throughout my professional journey of more than two years of experience. My aim is to contribute effectively to the company's success, utilizing my skills in Metal Structure Assembly and Equipment Operation to ensure optimal performance in these domains.

In addition to my collaborative experience within team environments and effective coordination with supervisors and project managers, I consistently prioritize safety standards when accessing workshops. Prior to starting work, I ensure strict adherence to safety norms, projecting a positive image of the company and safeguarding its esteemed reputation.
