SUMMARY

Talented Fresh-graduate software engineer specialized in Front-end web development. Actively contributes to idea generation and code implementation. Applies theoretical knowledge and practical skills to develop software user interfaces. Utilizes strong problem-solving abilities for project success.

EDUCATION

Nile University

07/2023

Bachelor of Computer Science and Information Technology

CGPA: 2.89 (Very Good)

- Minor in Media Informatics.
- Awarded Ranked 6 in UGRF for a Tracking Line Robot Project.
- Attended TICO webinar about "The Role of Intellectual Property in Maximizing the Value of Research Activities"

EXPERIENCE

Software Developer at Qayedny

10/2023 – 3/2024

Responsibilities:

- Testing & Reporting testing results
- Planning & Collaboration
- Software Modification by finding solutions for the bugs and improving interfaces.
- Implementing front-end Web pages
- WordPress Management
- Team Leadership (Led 2 teams: Web, and mobile application)
- Participated in Product Development
- Event Promotion
- Interview Assistance
- Task Reporting
- Workshop Attendance

IOT Intern at ITI

9/2022 – 10/2022

- Learned about Internet of things (IoT)

Front-end web developer Intern at ITI

8/2022 – 9/2022

- Created front-end website using HTML, CSS, JS, and Bootstrap.
- Learned Nodejs, Reactjs, ES6, and angular.

Attended INTEL ISEF

2018

- rank: 2nd place in educational administration, and 10th place in the province.

PROJECTS

- Front-end website using HTML, CSS, Bootstrap, JavaScript
- E-commerce Website
- Hospital Management System using MySQL and Python for GUI
- Data analysis project, NFL-EDA Kaggle dataset
- Image Recognition using Machine Learning and Python
- Face Recognition using HOG.
- Plant disease detector application and website using Flutter.
- Line Tracker Robot
- Chat Program using Python.
- Implementation of 7-segment hexadecimal (Logic Design)
- Software engineering project (scrum meetings, agile, testing, use cases)
- C++ programs for theory of computing and compiler designs

COURSES

- Soft Skills at Cairo University
- English at Cairo University
- Neural networks and Deep learning from Coursera
- Currently working on PHP full stack at CLS Learning and developing ICDL at Cairo University
