- Leadership
- Solving problems
- Fast learner
- Flexibility
- Multi tasking
- Critical thinking

## LANGUAGES

Arabic

English

## CAREER OBJECTIVE

I am looking to work for an organization offering continued growth and development where I can find stability for a long time, so I can exhibit my analytical skills to the best and help the organization to meet its goals .

## EDUCATION QUALIFICATIONS

### Bachelor's Degree in Biomedical Systems Engineering .

Yarmouk University , Jordan .

Duration : 2019 - 2024 .

## MAIN DUTIES

- **Design and Development of Medical Devices :**  
Develop and improve medical devices, ensuring they meet regulatory standards and user requirements.
- **System Integration :** Integrate biomedical systems and equipment into healthcare facilities, ensuring seamless operation with existing technologies.
- **Maintenance and Troubleshooting :** Perform regular maintenance, troubleshooting, and repairs on biomedical equipment to ensure optimal functionality.
- **Calibration and Testing :** Conduct calibration and testing of medical devices to ensure accuracy, safety, and compliance with industry standards.
- **Technical Support and Training :** Provide technical support to healthcare professionals, offering training on the proper use and maintenance of medical equipment.
- **Research and Innovation :** Stay up-to-date with technological advancements, conducting research to develop innovative solutions for medical system challenges.
