Achievement during six months stage of anaesthesia in cardiovascular surgery + support patients operated for heavy wound surgery

✓ 2008

LOUIS-PASTEUR CHARTRES FRANCE

INTERNSHIP OF ANESTHESIA AND RESUSCITATION

Education

High school diploma in mathematics
Excellence

1995

Medicine's university of Tunis

TUNISIAN DOCTORATE IN THERAPEUTIC STUDIES 1996 TO 2000 –

1996-2000

University of medicine

EXAM OF SPECIALITY

ANESTHESIOLOGY AND RESUSCITATION

2003

University of tunis

PHD in medicine

17-04-2008

Projects

- TRAINING COURSE OF FFI AT INTERCOMMUNAL OF POISSY HOSPITAL, ACTIVITY MAINLY TARGETS ON ANESTHESIA IN OBSTETRIC
- SERVICE OF ANESTHESIA ROBERT DEBRÉ HOSPITAL, focused on paediatric and obstetrical anaesthesia

skills

- Strong problem-solving abilities when confronted with a set of unique symptoms from a patient, allowing me to make an accurate diagnosis.
- Patient, compassionate, and caring when treating and counseling patients in practice, making them feel like they're in good hands under my care.
- Excellent at communicating with colleagues within my department and with patients and family members about next steps in care.
- Solid background in therapeutic field and all aspects of medical practice giving me a wide variety of knowledge about what therapies work best for each condition.
