

## Ahmed Soliman Ali Soliman

Address: Ayyat - Giza  
Country: Egypt  
Mobil: 01129564590 /01008946225  
E-mail: [eng\\_ahmedsoli@yahoo.com](mailto:eng_ahmedsoli@yahoo.com)

### Career Objective:

I am seeking a suitable position suits my qualifications and skills. I would like to give all my effort and wish to gain a useful experience.

I am also having personal objectives; which includes enabling myself to observe the importance of time and project management, to be able to work under pressure, take initiatives where necessary, submit deliverables on or before deadlines as well as producing a product that has a high degree of quality, meets the initial specification requirements and above it all performs over a minimum level of excellence.

### Educational Ref. 2003/2008

- [ Faculty of engineering- Cairo University - Egypt ]
- Electrical Power and Machine Department
- Graduation Project < Electrical installation >
- General Graduation is very good (ΣΣ, ٦٧%)

### Training / Work Experience

#### Summer 2006

- Training in Iron and Steel factory.

#### Summer 2007

- Training in Elswedy factory.

### From November 2008 until july 2010 :

#### **Maintenance &Control Engineer** for "Egyptian Copper Works (ECW)"

In tabbin factory (**GEMET**) with responsibilities for;

- Maintenance of industrial plants (rolling machine, slitting line & Cutting line of aluminum sheets) (hydraulic and pneumatic systems).
- I worked at some new projects at **General Metals Company (GEMET)**, developing project the furnace of Aluminum to Natural gas by ABD Company.
- Make a gab control developing project at milling roll machine.
- Deals with inverters and converters (**Commander SK**) and adjust its parameters to fit the application
- Maintenance of cables, transformers and CB for medium voltages (11,12KV)

## From July 2010 until Now:

I work in **South Cairo Electricity Distribution Company**

-As electrical engineer for head of medium voltage

- Testing cables and deal with the Testing car for cables (model HDW and SIBA)

-Make maintenance for transformers and transmission lines.

And I deal with all component of the electrical system like transforms, C B, and all types of cables (medium voltages 11KV&22KV)

-Make design and feeding important loads like (hospitals, water and sewage station)

-Male New Distributors for new towns and feeding transformers.

**And I get some courses like new engineer, safe and healthy professional, testing cables, maintenance of all components ...**

## Technical Skills :

**Computer skills (Microsoft word, AutoCAD, Matlab, Dialux)**

**Soft Skills(Verbal communication, Presentation skills, Team spirit)**

## Additional Information

**Gender:** Male  
**Birth Day:** May, 10,1986  
**Military Status:** postponed  
**Nationality:** Egyptian  
**Marital Status:** Married  
**Languages:**

**Arabic:** Native language, excellent reading & writing.  
**English:** Good reading & written.

## Graduation Project Information

### Graduation Project Name

Electrical installation of National Cement Company

### Graduation Project mark

Excellent

### Supervising Doctor(s)

Prof.dr/ Mohammad Mamdouh Abd el-Aziz  
Pro.dr/ Esam el-Deen Abou el-Zahab  
Dr./ Essam Shaltout

### Tools and Technologies

Dialux program for light calculation, **AutoCAD** program, SIMARIS Program, and Microsoft (word, PowerPoint).
