Currently:

My living conditions are very difficult.

Please:

My work and my wife's work had stopped too!!

Because; there is no electricity and no water to irrigate the crops, "fruits and vegetables", and to raise animals, as the rivers have dried up in Iraq, and I do not own a house for the purpose of housing, and I do not own land!!

Because of Iraq's complicated past, current and future conditions as well.

Please:

Agree to host me in your country, and allow my wife with my daughter to work in your country.

Your country will become like my permanent country.

My greetings.. My wife's greetings... My daughter's greetings....
