## ABOUT ME

I am a highly skilled Architect with expertise in cutting-edge design software, including Revit, AutoCAD, and Lumion. I possess a Bachelor's degree in Architecture Engineering from Al-Basra University and is fluent in both Arabic and English. With a comprehensive portfolio showcasing diverse design projects, I'm actively seeking career opportunities within foreign, private, oil, or planning companies. My skill set encompasses effective communication, adept problem-solving abilities, and steadfast commitment to continuous professional development.

## SKILL

architectural design software (Revit, AutoCAD, Lumion)

Microsoft Office Suite

Teamwork and collaborative skills

Effective client communication and persuasion
