Technical skills

- ☐ Intro to Cyber security (self learning)
- ☐ Ccna (self learning)
- ☐ Mcsa (self learning)
- ☐ Python (Faculty course)
- ☐ Microsoft Office (word-excel-powerpoint)

Personal skills

- Online work
- Self learning
- Punctuality
- Time management
- Solution oriented
- constant developing

Education

Bachelor degree

Faculty of Engineering, Al-Azhar University, Egypt.
(Sep 2018- Jun 2023)

Specialization:

Electronics and Communication Engineering Department.

Graduation project:

Simulating service providing network (**excellent**)

Short bio.

I am an Electronics and Communication engineer specialized in the field of network engineering. I have a very good level in delivering high-availability network infrastructure to sustain the users' online and on-site information technology activities.

my graduation project was in Simulating service providing network.

I am training and preparing myself to design and implement network configurations, troubleshoot performance issues, carry out network monitoring and configure security systems such as firewalls., work closely with project managers and other engineers, manage capacity and carry out remote or on-site support.

languages

- ☐ **Arabic:** fluent
- ☐ **English:** (intermediate)

personals

date of birth: 5/5/2001 **nationality:** Egyptian

material status: single

hobbies: reading, Watching motivational videos

internship

trainee engineer

- ☐ South Delta electricity distribution company In Tanta branch
