### OBJECTIVE

I seek challenging opportunities where I can fully use my skills for the success of the organization. I am a fresh graduate with a Bachelor's degree in Statistics and Public Administration with a number of workshops and training courses, and I aim to benefit from the acquired academic knowledge and training experience to effectively occupy my position as a junior in your organization , and I am a dedicated employee who aims to help to achieve the goals of the institution and take on more responsibilities as quickly As soon as possible, as I integrate into the work team, and I am keen to learn from everything new in order to be a point of strength in the interest of the company, so everything that is in the interest of the company is in the interest of its employees and I am one of them .
