Went on a semester abroad in the German university in Cairo Berlin campus and being exposed to new cultures and habits, learning a lot of skills and independency and also gained a lot of experience from the German culture

## BACHELOR:

Design of Concrete Mall: Developed a comprehensive design for a shopping mall, including structural analysis, reinforcement detailing, and coordination with architectural. Achieved an A grade for the project.

## internships and experience

### Royal Developments

- Assisted in the design and analysis of structural components for residential and commercial projects.
- Collaborated with senior engineers to review construction drawings and ensure compliance with design specifications.
- Conducted site visits to monitor construction progress and identify any potential issues.
- Assisted in cost estimation and quantity take-offs for materials and labor.
- Prepared technical reports, documentation, and presentations for project meetings.
- Contributed to project coordination efforts, including procurement activities and subcontractor management.

### Inspire GUC

2 years Teams member and one year Talent Management member gained a lot of experience along the years. Organized Cycling and Running events communicated with cycling companies and participant from all around Cairo.

### Ushering events

I had the incredible opportunity to usher at two momentous events, the opera in Tamayoz event and the graduation ceremony of the prestigious German University in Cairo (GUC). It was an experience that filled me with immense pride and offered me a unique insight into the world of event management and organization. The opera in Tamayoz event was a highly anticipated

gathering that celebrated excellence and achievement in various fields. Held in a grand convention center, the event brought together distinguished individuals, industry leaders, and aspiring talents from diverse backgrounds. As an usher, my role was to ensure the smooth flow of the event, assist guests, and provide them with a warm and welcoming experience.

After the successful conclusion of the opera in Tamayoz event, my journey continued to the graduation ceremony of the GUC. As a renowned institution, the GUC's graduation ceremony was an unforgettable occasion for both students and their families. The ceremony took place in a magnificent auditorium, filled with an atmosphere of anticipation and accomplishment.
