## EDUCATION

University degree in Environmental Chemistry

**Institute of Environmental Sciences and Technologies**

2022 - 2024

Master's degree in Industrial Chemistry and Processes

**the Higher Institute of Applied Sciences and Technology**

2024 - 2025

## TRAINING CERTIFICATE

- Entreprenariat
- Birth and evolution of sustainable development
- How to create your mobile app without coding and publish it on Google Play
- The quality and type of drinking water in Tunisia

## LANGUAGE

French

English

## About Me

I am a recent graduate of Environmental Chemistry from the Higher Institute of Environmental Sciences and Technologies, where I achieved a grade close to excellent in 2024. Currently, I am pursuing a professional master's degree in Industrial Chemistry and Processes at the Higher Institute of Applied Sciences and Technology, further enhancing my expertise in the chemical field.

## WORK EXPERIENCE

November 2023

### Internship

Water, Membrane and Biotechnology Laboratory of the Environment (LWMBE) at the Centre for Research and Water Technologies

July 2023

### Internship

Laboratory of Composite Materials and Clay Minerals (LCMCM) at the National Center for Research in Materials Sciences (NCRMS)

July 2022

### Internship

Medical biology laboratory of the regional hospital
