About me

I am a mechanical engineer looking to apply my academic and practical experience in a role that promotes innovation, sustainability, and makes great strides in the evolving technology landscape. I am seeking a position as a mechanical engineer where I can use my extensive experience to help industrial and technical communities achieve their goals of excellence in the mechanical engineering industry. As a general mechanical engineer, I have worked in a variety of fields, including mechanical design, renewable energy, plumbing and drainage design, and Golf Car maintenance.

Areas of Expertise

- | | | |
|---------------------------|----------------------------|-----------------------------|
| 1. Problem-Solving Skills | 5. Mechanical system | 9. calculations |
| 2. SolidWorks | 6. Renewable Energy system | 10. Microsoft Office |
| 3. Plumbing design | 7. Maintenance planning | 11. sanitation design |
| 4. Leading the work team | 8. Metal pipe extensions | 12 . golf care maintainance |

EDUCATION

Al-Hussein Bin Talal University

Mechanical engineering

2019 -2024 , Ma'an

AL blqa'a University \ Ma'an college

Renewable energy engineering

Apr.2016 - Dec.2017

TRAINING COURSES

1. Solar energy systems

vocational training corporation

Jul.2016 - Jul.2017

2. Solid Works

The hope Company

Apr.2023

3. Design of sewage systems

Jordanian Engineers Association

Apr.2024

4. Occupational safety and health supervisor
 \ **professional level.**
 Aug , 2024 - Nov , 2024
 5. Occupational safety and health supervisor
 \ **specialist level .**
 Jan , 2025
-

EXPERIENCES

1. Trainee at Water authority

Jon 2023 - Aug 2023

2. Golf car maintenance and repair at Petra regional authority

Aug 2024- 2025

Language

Arabic

mother language

English

is very good

Memberships and unions

Jordanian Engineers Association
