

Ahmed Omar Jiji

Senior Technical Nurse

I am an experienced Senior Technical Nurse Decrypter with a strong background in deciphering encrypted medical data. I possess the skills necessary to ensure accuracy, support patient care, collaborate with cross-functional teams, analyze data, and maintain strict confidentiality. My proficiency in utilizing nursing expertise, technical knowledge, and excellent communication skills allows me to make significant contributions to the improvement of healthcare.

Experience

2020 - 2023

Sinjar General Hospital

Experienced Technical Nurse with expertise in nursing and technology integration. Skilled in providing technical support, maintaining equipment, optimizing workflows, and ensuring patient safety. Committed to leveraging technology to enhance patient care and improve operational efficiency.

2018 - 2019

WAR CHILD_ Volunteer

As a Child Protection Committee Volunteer, I contribute to safeguarding children by raising awareness, supporting case management, providing emotional assistance, advocating for their rights, and collaborating with local organizations. My commitment to child protection helps create a safer environment for children to thrive.

2019-2020

G4S- Logistic assistance

Provide essential support in logistics operations, including inventory management, order processing, transportation coordination, and record-keeping. Contribute to the efficiency of supply chain management and ensure timely delivery of goods.
